Md Belal Akhlaque

Noida, Delhi | +91 7311177404 | mdbelalakhlaque9@gmail.com | GitHub | LinkedIn

Summary

Full Stack Developer specializing in the MERN stack, with a strong foundation in Data Structures and Algorithms. Experienced in building secure, production-ready applications with REST APIs, JWT authentication, role-based access control, and payment gateway integrations. Focused on writing clean, maintainable code and delivering reliable, user-focused products.

Technical Skills

Languages: C, C++, JavaScript (ES6+), Java

Frontend: React.js, Redux, Context API, HTML5, CSS3, TailWind CSS

Backend: Node.js, Express.js, REST APIs, JWT Authentication, bcrypt

Databases: MongoDB, Postgresql, MySQL

DevOps: Git, GitHub, Vercel, Render

Core CS: DSA, OOP, DBMS, Operating Systems, Computer Networks

Projects

Zaika – Full-Stack Food Delivery Platform Live

- *React.js • Redux • Node.js • Express.js • MongoDB • JWT • bcrypt • Razorpay • Vercel • Render*
- Built a full-stack food delivery application using the MERN stack (MongoDB, Express.js, React.js, Node.js), implementing role-based access control (RBAC) across 3 user roles – customers, restaurant owners, and delivery partners.
- Designed and developed 15+ secure RESTful API endpoints with JWT-based authentication and bcrypt password encryption, ensuring protected user sessions and data security.
- Engineered a responsive React.js frontend with Redux/Context API for state management, integrated the Razorpay payment gateway for real-time transactions, and deployed the application on Vercel.

Typing Master – Real-Time Typing Speed Analyzer Live

- *React.js • Redux • JWT Authentication • Vercel*
- Developed an interactive typing speed analyzer with 3 difficulty levels and configurable timer durations for personalized practice sessions.
- Built a real-time calculation engine to measure typing speed (WPM), accuracy, and error count, updating results instantly as users type.
- Designed a responsive, single-page interface with efficient Redux-based state management for a smooth, lag-free typing experience.

MovieStream – Movie & TV Streaming Platform Live

- *React.js • TMDB API • JWT Authentication • Vercel • Firebase*
- Built a Netflix-style streaming interface integrating the TMDB API to fetch and render real-time movie and TV show data across multiple categories.
- Designed categorized content rows, hero banners, and a fully responsive UI optimized for desktop and mobile devices.
- Implemented JWT-based authentication to secure user sessions and restrict access to personalized content.

Education

JSS Academy of Technical Education, Noida 2024 – 2026
Master of Computer Applications (MCA) — CGPA: 7.6 / 10

KBPG College, Mirzapur 2019 – 2022
Bachelor's Degree — CGPA: 7.1 / 10

Certifications & Achievements

- **Qualified Graduate Aptitude Test in Engineering (GATE)** – Demonstrated strong understanding of core Computer Science fundamentals including DSA, DBMS, OS, and Computer Networks.
- **Mastering DSA using C and C++** (Udemy, Abdul Bari) – Built strong problem-solving foundation.
- **The Web Development Bootcamp** (Udemy, Angela Yu) – Comprehensive full-stack training.
